

YASHWANTH GOWDA S N

+91 8310033121 — Bengaluru, Karnataka — yashwanth.gowda.sn7@gmail.com — [LinkedIn](#) — [GitHub](#)

OBJECTIVE

Computer & Communication Engineering student with a strong foundation in Java and Data Structures & Algorithms, seeking Software Engineering Internship opportunities.

EDUCATION

B.E. in Computer & Communication Engineering, KS Institute of Technology (KSIT), Bengaluru

Expected May 2029

CGPA: 8.52/10.0

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems (OS), Computer Networks (CN)

SKILLS

Languages	Java, Python, SQL, JavaScript
Frontend	HTML5, CSS3, React.js
Backend	Spring Boot, REST APIs, Spring Data JPA, Spring Security, FastAPI
Databases	MySQL, MongoDB, ChromaDB
AI/LLMs	LangChain, RAG, OpenAI API, Gemini API, Vector Databases
DevOps	Docker, Kubernetes
Tools	Git, GitHub, Linux, Maven, Gradle, Postman, IntelliJ IDEA, VS Code
Core CS	DSA, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

PROJECTS

Persistent Memory AI Assistant

Built an AI assistant with persistent long-term memory using LangChain, ChromaDB, RAG, and Gemini/OpenAI APIs. Implemented contextual memory retrieval, semantic search, and intelligent conversations across multiple sessions.

Tech Stack: Python, FastAPI, LangChain, ChromaDB, RAG, Gemini API, OpenAI API, Docker

EcoSync AI – 3rd Place, EcoSpark 2026 Ideathon

Built an AI-powered IoT smart composting platform integrating ESP32-based sensors with a Spring Boot backend and React dashboard for real-time compost monitoring. Leveraged Gemini API to provide intelligent insights and recommendations for sustainable waste management. Secured **3rd Place** at the **EcoSpark 2026 Ideathon**.

Tech Stack: ESP32, Arduino, C++, DHT11, Soil Moisture Sensor, Gas Sensor, OLED Display, React.js, Spring Boot, MySQL, Gemini API

Smart Hospital Queue Management System

Developed a full-stack hospital management platform enabling appointment scheduling, real-time doctor availability, digital medical records, prescriptions, and intelligent patient notifications to reduce waiting time and improve patient experience.

Tech Stack: Spring Boot, React.js, MySQL, Spring Security, REST APIs, Docker

Scalable URL Shortener

Built a scalable URL shortening service with secure authentication, custom short links, click analytics, caching, and rate limiting. Designed for high performance using Redis caching and containerized deployment.

Tech Stack: Spring Boot, React.js, MySQL, Redis, JWT, REST APIs, Docker, Kubernetes

ACHIEVEMENTS

- Received the **Suzlon Young Brilliance Award 2026 in Pune** for academic excellence.
- Ranked among the **Top 10 Teams** at the **Google Developer Groups (GDG) TechSprint 2025**.
- Secured **3rd Place** at the **EcoSpark 2026 Ideathon** for developing **EcoSync AI**, an AI-powered IoT smart composting system.
- Solved **100+** Data Structures & Algorithms problems on LeetCode.
- Achieved a **Apprentice** rating on LeetCode contests.
